Hi

To Chairman Martin,  
Commissioners Adelstein, Coppa, McJowell,  
Tate.

My name is Nannette Pizarro, I sent you the postcard already, still I'm very stubborn that I want VRS-vp to stay in service much better than just having TDD/TTY. Because on the TDD/TTY, it's easy misunderstood from the interpreter, sometimes TDD/TTY has really trouble had type like it couldn't get through. I'm really tired of getting misunderstood period. I prefer using VRS-vp to sign it clearly than being misunderstood. You guys could cause deaf people to get upset, chaos etc.

I myself plan on getting my VRS-vp soon. I'm not giving up. I could ask my mom, sister, brothers and my whole family relatives to sign all the petite forms to fight the rights. I ask my mom to voice her opinion, and my Aunt Cruz, Cousin Elalis, etc to support

us for being deaf people's needs.  
Respect Deaf People's needs, feeling.  
Don't you Dare to cutback.

Wait and see when I get full Sign by  
family and friends on the petition  
form. Okay. Please have VRS- vp  
stays there in Service for US Deaf  
people Period.

We will Win, You guys lose.  
Because we born deaf,

yours Truly,  
Nannette Pizarro

P.S. . It is not fair being  
hearing people talk on the phone  
but for us - what we do? Nothing  
if No MORE TDD/TTY in the future.

Where's VRS to Service us?  
if you Cutback.

We need to make an appt for  
Doctor, hearing aid Appt, many  
reason.

THINK ABOUT US being  
Suffer! ♡

RE: CG Docket No. 03-123

To: Chairman Martin;

Commissioners Adelstein, Copps, McDowell, and Tate

I am Deaf and I need Video Relay Service (VRS) in order to be able to place and receive phone calls with hearing individuals in my own native language – American Sign Language (ASL). I am writing to strongly urge the FCC to establish a new stable, reliable, and predictable VRS rate for the next three years. I know that a long-term stable rate will directly impact the VRS services that I rely upon.

Please set a fair VRS rate that encourages VRS providers to:

- ☐ Increase VRS access for all Deaf individuals through outreach programs
- ☐ Invest in the training and development of additional professional interpreters
- ☐ Improve VRS technology to provide reliable 24/7 and 911 services

**Cutting the VRS rate would severely impact the quality of VRS, which I rely on for my communication needs.**
